Summary

Passionate **Software Engineer** with expertise in full-stack and backend development. Strong foundation in scalable system design and data science principles, building efficient, intelligent applications that solve complex business problems and drive technological innovation.

Education

Bachelor's degree in Computer Science – Faculty of Computers and Artificial Intelligence, Cairo University.
Cumulative GPA: 3.91/4.00 (2022 – 2026)

Projects

- Quiz Management System (Full stack)** [GitHub](#)
 - Developed a full-stack web application using **Django, HTML, CSS, JS, and DRF** enabling teachers to create timed quizzes and students to take them with auto-evaluation and result reporting.
- Learning Management System (Backend) – Team project** [GitHub](#)
 - Collaborated with a team of 5 to develop core backend services for an educational platform using **Java Spring Boot**. Implemented assignments submission and grading mechanism.
- Appointment Booking System (Backend)** [GitHub](#)
 - Developed a **Spring Boot and SQL** backend for an intelligent scheduling system that optimizes appointment booking using real-time data.
- Event Booking System (Full stack)** [GitHub](#)
 - Built a full-stack web app for browsing, booking, and managing events with an integrated admin panel using **Django, HTML, CSS, and JS**.
- Job Search Website (Full stack) – Team project** [GitHub](#)
 - Contributed to a team of 4 in developing a job portal with user authentication, job postings, and an admin dashboard using **Django, HTML, CSS, and JS**.

Work Experience

- Database Administration Intern – e& Egypt** Aug. 2025 – Sept. 2025 *Cairo, Egypt*
- Gained hands-on knowledge in Oracle Database Administration and Architecture.
 - Completed Oracle Database 19c Administration Workshop covering installation, configuration, and management.
 - Performed practical tasks related to database creation, user management, backup, and recovery.

Certifications & Courses

The Complete 2024 Web Development Bootcamp – Udemy
Fundamentals of Backend Engineering – Udemy
SQL Fundamentals Track – DataCamp
GitHub Foundations – DataCamp

Technical Skills

Languages: C++, Python, Java, PHP, JavaScript, SQL
Frameworks & Libraries: Django, DRF, Spring Boot, Laravel
Databases & Tools: PostgreSQL, MySQL, Oracle 19c, Git, GitHub
Concepts: OOP, Data Structures, REST APIs, Database Administration, Algorithms

Soft Skills

Collaboration & Teamwork: Proven ability to work effectively in team environments on multiple projects.
Adaptability: Quick learner with experience across multiple tech stacks and domains.
Time Management: Successfully balances a demanding academic workload with projects and internship.
