Summary

Computer Science student with a strong foundation in building robust, full-stack applications, now focused on applying those skills to design and deploy scalable data pipelines and machine learning models. Passionate about leveraging engineering principles to solve complex data problems and deliver data-driven products.

Education

Bachelor's degree in Computer Science – Faculty of Computers and Artificial Intelligence, Cairo University.
Cumulative GPA: 3.91/4.00 (2022 – 2026)

Projects

- Quiz Management System (Full stack)** [GitHub](#)
 - Developed a full-stack web application using **Django, HTML, CSS, JS, and DRF** enabling teachers to create timed quizzes and students to take them with auto-evaluation and result reporting.
- Sales Forecasting and Optimization Project (Data Science) – Team Project** *In Progress*
 - Built and deployed a machine learning model to predict product demand, improving forecast accuracy.
- Learning Management System (Backend) – Team Project** [GitHub](#)
 - Collaborated with a team of 5 to develop core backend services for an educational platform using **Java Spring Boot**. Implemented assignments submission and grading mechanism.
- SMS Spam Classifier (Machine Learning, NLP)** [GitHub](#)
 - Created a machine learning model achieving **98%** accuracy in classifying SMS messages as spam or ham using **NLP** techniques.
- Smart Appointment Booking System (Backend)** [GitHub](#)
 - Developed a **Spring Boot and SQL** backend for an intelligent scheduling system that optimizes appointment booking using real-time data.
- Event Booking System (Full stack)** [GitHub](#)
 - Built a full-stack web app for browsing, booking, and managing events with an integrated admin panel using **Django, HTML, CSS, and JS**.
- Music Store Data Analysis (Data Analysis)** [GitHub](#)
 - Analyzed music sales data using **Python and SQL**, identifying top-performing genres and customer purchasing patterns.

Work Experience

- Data Science Trainee — Digital Egyptian Pioneers Initiative (IBM Curriculum)** July 2025 – Present
 - Analyzed and preprocessed large real-world datasets using **Pandas** and **NumPy**, improving data quality for model training by handling missing values and outliers.
 - Created visualizations and dashboards with **Matplotlib, Seaborn, and Streamlit** to communicate findings and model performance to a non-technical audience.
 - Built, trained, and evaluated supervised and unsupervised **machine learning models** using **Scikit-learn** for classification and regression tasks.
- Database Administration Intern – e& Egypt** Aug. 2025 – Sept. 2025 *Cairo, Egypt*
 - Gained hands-on knowledge in **Oracle Database Administration and Architecture**.
 - Completed the **Oracle Database 19c Administration Workshop**, covering installation, configuration, and management.
 - Performed practical tasks related to database creation, user management, backup, and recovery as part of the workshop.

Certifications & Courses

Oracle Database 19c Administration Workshop – **e& Egypt**
SQL Fundamentals Track – DataCamp
Associate Data Analyst in SQL – DataCamp
The Complete 2024 Web Development Bootcamp – Udemy
Fundamentals of Backend Engineering – Udemy
GitHub Foundations – DataCamp

Technical Skills

Languages: C++, Python (Pandas, NumPy, Scikit-learn, Matplotlib), Java, PHP, JavaScript, SQL
Frameworks & Libraries: Django, Django REST Framework (DRF), Spring Boot, Laravel
Databases & Tools: PostgreSQL, MySQL, Oracle 19c, Git, GitHub
Concepts: Machine Learning, Data Analysis, OOP, Data Structures, Algorithms, REST APIs, Database Administration, NLP

Soft Skills

Collaboration & Teamwork: Proven ability to work effectively in team environments on multiple projects.
Adaptability: Quick learner with experience across multiple tech stacks (Java/Spring, Python/Django, PHP/Laravel) and domains (Web Dev, Data Science, DBA).
Time Management: Successfully balances a demanding academic workload (3.91 GPA) with project development and internship responsibilities.

Extracurricular Activities

Google Developer Student Club (GDSC) – UI/UX Committee Member	(Feb 2024 – July 2024)
Microsoft Student Partner Tech Club (MSP)
